

Muhammad Asghar

EXPERIENCE

January 2025 - Current

Safety Officer IKK Construction Company Golf Course Project |
Trojena Tabuk Region, SAUDI ARABIA

- Ensured strict implementation of company and client HSE policies and procedures on site.
- Reported safety hazards identified at sites or during construction and assisted with remedial actions.
- Reported all safety issues in efficient and professional manner, to reduce risk.
- Conducted daily site inspections to identify and mitigate potential hazards.
- Delivered safety induction and toolbox talks to all new workers, and subcontractors.
- Coordinated with site engineers and supervisors to ensure safe work practices.
- Prepared risk assessments, method statements, and safety reports.
- Monitored compliance with PPE requirements and housekeeping standards.
- Participated in incident investigations and implemented corrective actions.

August 2024 - December 2024

Safety Officer Kanoo Industrial and Energy - Saudi Electricity Company (SEC) upgradation of UPS project | Juhimya, KSA

- Conduct and establish risk assessments for diverse activities, including cable pulling, work at height, and inverter replacement operations.
- Develop and implement Job Safety Plans (JSP) and deliver Toolbox Talks (TBT) to ensure workforce understanding and compliance with safety protocols.
- Monitor and enforce stringent work-at-height safety measures.
- Oversee cable pulling and termination activities, ensuring proper scaffolding setup, equipment use, and adherence to live electrical area precautions.
- Ensure proper housekeeping to mitigate slip, trip, and fall hazards during high-risk activities near live equipment.
- Collaborate with project teams to maintain compliance with SEC safety standards.
- Provide safety oversight during testing and commissioning of inverters as well as removal of old units.

October 2023 - August 2024

Safety Officer Rashid Trading and Contracting - Barri Development Project (Aramco) installation of OHPL and accessories | Jubail, KSA

- Developed and enforced safety policies and procedures in compliance with local regulations and international standards.
- Conducted risk assessments to identify and mitigate chemical, physical, biological, and ergonomic workplace hazards.

SUMMARY

Health and Safety professional with focus on hazard identification, risk assessment, and implementing safety protocols. Experienced in conducting safety audits, training staff on compliance, and managing incident investigations to ensure workplace safety standards.

SKILLS

- Computer literacy (Microsoft Word, Excel, PowerPoint, Outlook, Adobe Photoshop)
- Hazard identification
- Construction site safety
- Workplace inspection
- Training and mentoring
- First Aid trained
- Risk Assessments
- Fire and safety guidance
- Health and Safety regulations
- Site Inspections

- Delivered safety training programs to employees, covering emergency procedures, safety protocols, and the proper use of safety equipment.
- Conducted regular inspections of facilities, equipment, and processes to identify safety hazards and ensure compliance with safety standards.
- Investigated accidents, incidents, and near-misses to determine root causes and implemented corrective actions to prevent recurrence.
- Developed and maintained emergency response plans for scenarios including fires, chemical spills, and natural disasters.
- Ensured availability, proper maintenance, and correct use of Personal Protective Equipment (PPE) and safety devices throughout the organization.
- Promoted employee health and wellness initiatives, such as ergonomic improvements, wellness programs, and health screenings.
- Monitored environmental compliance concerning air quality, water pollution, waste management, and hazardous materials.
- Continuously enhanced safety programs, and industry benchmarking to align with best practices.

March 2021 - May 2023

Safety Officer Jawad Engineering and trading Co (maintenance of power houses project)| Islamabad, Pakistan

- Conducted routine toolbox talks, fostering team engagement, and reinforcing safety protocols and procedures.
- Enforced stringent compliance with personal protective equipment (PPE) standards, overseeing provision and monitoring meticulous usage.
- Actively contributed insights in discussions on injury, damage, and loss control, shaping effective preventive measures.
- Maintained a healthy work environment through comprehensive risk assessments and proposed enhancements to existing work methods.
- Led thorough accident investigations, identifying root causes, and implementing corrective actions to prevent recurrence.
- Responded promptly to workers' safety concerns taking swift and decisive action to address and resolve issues.
- Collaborated in developing robust emergency procedures with management, ensuring team preparedness for potential incidents.
- Regularly attended safety and operational meetings, staying informed about industry best practices and contributing insights.
- Facilitated provision and emphasized the importance of adherence to safety guidelines for personal protective equipment.
- Demonstrated proactive health and safety leadership, consistently seeking opportunities for improvement, and implementing effective risk mitigation strategies.

January 2019 - November 2020

Safety Officer DAELIM Industrial Co. Ltd gulpur hydro power project 102 MW| Kotli, AJ&K, Pakistan

- Facilitated daily toolbox meetings to brief all workers on safety protocols and procedures at the start of each shift.
- Orchestrated on-site training sessions to educate workers about site-specific safety measures.
- Compiled and submitted weekly reports, including Corrective Action Plans (CAPs) and Key Performance Indicators (KPIs), to the manager.
- Enforced the implementation of DEALIM LOTTE JV Health, Safety, and Environment (HSE) standards, policies, and procedures.

- Collaborated with the company paramedic, safety officers, and management to ensure adherence to the sanitary inspection system.
- Devised strategies to proactively prevent personnel injuries, mitigate damages to the work site or facility, and enhance existing work methods.
- Managed the provision and proper utilization of personal protective equipment (PPE) in strict accordance with safety guidelines.
- Conducted thorough pre-worksite assessments to identify potential hazards, ensuring compliance with safety and fire precautionary requirements.
- Provided valuable assistance to employees at all levels regarding safety training and protocols.
- Stayed abreast of recommended safety codes, disseminating pertinent information applicable to employees at different levels.
- Investigated and determined the root causes of accidents or dangerous occurrences, recommending preventive measures to forestall recurrence.
- Actively engaged in discussions addressing injury, damage, and loss control within the company.
- Evaluated accident trends and scrutinized overall safety performance to drive continuous improvement.
- Cultivated a company-wide understanding that injury prevention and damage control are integral components of business and operational efficiency.
- Investigated and assessed the suitability of new safety equipment for potential implementation.

January 2018 - July 2018

Safety Officer DAELIM (Kemya SEP-SSBR Project) | Jubail, KSA

- Rigorously enforced the implementation of DAELIM and SABIC Health, Safety, and Environment (HS&E) Standards, Policies, and Procedures.
- Conducted thorough inspections to identify potential hazards associated with activities, issuing Safety Corrective Action Requests (SCARs) before the commencement of any work in the respective areas.
- Periodically performed internal inspections of the laydown yard, ensuring a consistently healthy environment for all work crews.
- Maintained optimal health conditions on-site by conducting risk assessments, proposing ideas for improving work methods, and preventing injuries and facility damage.
- Aided employees at all levels regarding safety training, staying current with recommended safety codes, and disseminating relevant information to each employee tier.
- Ensured an ample and strict provision for the use of Personal Protective Equipment (PPEs) and supervised their implementation.
- Participated in discussions about injury, damage, and loss control, actively contributing to the identification of the causes of accidents or dangerous occurrences and recommending preventive measures.
- Cultivated a collective understanding within the company premises that injury prevention and damage control are integral components of business and operational efficiency.

November 2016 - August 2017

Safety Officer Sadara Chemical Company | Jubail, KSA

- Generated daily Environmental, Health, and Safety (EH&S) reports detailing unsafe acts on the job site and proposing preventive measures to avert recurrence.

- Prepared daily Behavior-Based Performance (BBP) reports for construction, maintenance, and operational activities, ensuring comprehensive documentation.
- Conducted audits of active and inactive Safe Work Permits (SWPs) to maintain compliance and operational safety.
- Promptly notified the owner of any changes or unsafe conditions, demonstrating a commitment to proactive communication.
- Identified and assessed hazards and risks within task/job steps, contributing to a thorough understanding of potential challenges.
- Conducted joint site inspections with SWP issuers and acceptors, facilitating discussions on the line of fire with the work crew.
- Identified hazardous conditions on-site and reported them to the EH&S lead and shift foreman for immediate attention.
- Reported all near-miss incidents found at the site, conducted thorough investigations, and submitted final reports to the EH&S lead.
- Ensured rigorous follow-up on hazard and near-miss reports, promoting a culture of continuous improvement.
- Conducted weekly and monthly inspections of tools and equipment to guarantee their safety and functionality.
- Ensured the implementation of Sadara standards in CS&U and the process area, maintaining alignment with industry best practices.
- Monitored the safe work permit system, actively contributing to the enhancement of overall safety protocols.
- Disseminated safety information by strategically placing safety boards, fostering awareness and compliance.
- Attended daily CS&U and Maintenance meetings, actively participating in discussions and providing safety insights.
- Engaged in weekly EH&S meetings with CS&U leadership, facilitating comprehensive discussions on reports from the previous week and addressing safety concerns.

August 2015 - September 2016

Safety Officer Mohammad Ali Al Swailem Co. Ltd | Jubail, KSA

- Develop and uphold effective environmental, health, and safety policies and programs specific to the project's requirements.
- Create and deliver practical safety and environmental training programs for all team members.
- Establish policies and procedures to ensure strict compliance with regulations and guidelines.
- Tailor training sessions for employees at different levels, promoting a culture of safety awareness.
- Oversee personnel training and follow up on corrective actions to enhance skills and maintain a proactive safety approach.
- Implement a comprehensive accident investigation, data analysis, and prevention program.
- Conduct on-site reviews and audits to improve operations and facilities.
- Stay updated on regulations and requirements related to hazardous materials.
- Evaluate new safety equipment for suitability and effectiveness.
- Respond promptly to and assist in emergencies, demonstrating crisis management readiness.
- Perform additional assigned duties, showcasing flexibility and a willingness to contribute to various project aspects.

January 2012 - June 2015

Security Officer Al Jaber Coin LLC | UAE

- Simultaneously fulfilling the roles of a security officer and safety officer, managing responsibilities in both areas effectively.
- Providing vigilant security oversight to ensure the protection of personnel, assets, and facilities.
- Implementing and enforcing safety protocols to minimize workplace hazards and prioritize the well-being of individuals on-site.
- Coordinating emergency response activities for both security and safety scenarios, ensuring a swift and organized approach.
- Conducting regular risk assessments to identify potential security threats and safety hazards, taking proactive measures to mitigate risks.
- Managing incident reporting systems for both security and safety incidents, ensuring accurate documentation and analysis.
- Developing and delivering comprehensive training programs covering both security and safety measures for all personnel.
- Evaluating and ensuring the effectiveness of security and safety equipment, making recommendations for improvements or upgrades.
- Maintaining open communication channels with relevant stakeholders, fostering collaboration between security and safety teams.
- Continuously reviewing and enhancing security and safety measures, staying abreast of industry best practices to ensure optimal protection and well-being.
