Dear Mr Khan,

Congratulations! You have now met the necessary requirements for Certified membership of the Institution of Occupational Safety and Health. You may now use the post nominal designation CertIOSH. You will receive your certificate within 3-6 weeks from the date of this email (up to 10-12 weeks for international members). Please avoid contacting IOSH for a certificate update prior to the time frame mentioned above.

Following an upgrade, we do not automatically reissue a membership card. You will however receive a new one when you renew your membership.

How do I protect my IOSH membership grade.

To be compliant regarding your Continuing Professional Development (CPD) you will need to update your record online via Blueprint. You will need to complete the self-assessment, and this will provide you with your personal development plan with access to the CPD resources library. Within your category of membership, it is mandatory to complete 30 hours of CPD over a 12-month period, ensuring a detailed reflective statement is completed for each activity. Further guidance on how to update your CPD can be found in the help section within Blueprint. You will have received completed for each activity. Further guidance on how to update your CPD can be found in the help section within Blueprint. You will have received your Blueprint access details upon joining IOSH.

How to update your CPD

- Complete the self-assessment - by completing your self-assessment, you will be able to see which areas you need to develop and identify your strengths.
- Commit to your personal development plan - you can use it to create a personal development plan that systematically guides you to reach the desired levels of proficiency in those competencies.
- Adding CPD activities – based on your areas of development highlighted within your self-assessment you can access content to enable your learning and development. A minimum of 30 hours annually is required to be completed. Each unit of IOSH CPD content in Blueprint has suggested timings built in. However, because everyone learns at a different pace, this is only a guide.
- Keep reflecting - An important part of CPD is reflecting on what you have learnt and how you have put this into practice. You should capture this in reflective statements and identify any strengths or areas for further improvement or learning to enable you to continually grow.
- Ethical practice – Certified members are also encouraged to complete the IOSH Ethical Practice in OSH e-learning and assessment hosted in Blueprint. For more information, please visit the IOSH [website](#).

We have a dedicated CPD team to support you on your professional journey. However, Certified Members, who do not complete the required CPD will be sanctioned and reverted to Affiliate Membership unless there are mitigating circumstances. This is because CPD is not mandatory for our Affiliate grade.
