### **AIMS & OBJECTIVES: -**

- The primary objective of workplace safety is preventing workplace from injuries, illnesses, fatalities and recognizing all the near misses. Organizations develop detailed plans that provide guidance in the event of an accident, fire, natural disaster or other emergency. Workplace safety plans also identify the roles and responsibilities of employers and employees when responding during incidents. For example, some employees are responsible for directing workers to emergency stairwells or exits. Another goal of workplace safety is reducing and removing current dangers to improve working conditions, furthermore;
- BASIC OBJECTIVES of Safety Management Systems is to Identify Hazards, Assess Risks and Eliminate / Reduce Risks through proper mitigation (HSE Management) plan.
- Increase focus on compliance through risk-based inspection and enforcement. Promote: Support, educate and raise awareness to prevent accidents, injuries and ill health. Accredit: Grow the national

accreditation service to enable and support enterprises and public services.

- Co-ordination with all Site Construction Management, in focus with Construction Manager, Site Engineers, Supervisors and Foremen to follow safe working procedures Under all International Labour Organisation's ( ILO's ) R164 – Occupational Safety and Health Recommendation, 1981.
