Professional Summary

Proactive and dedicated Health, Safety & Environment (HSE) Officer with more than 4 years of UAE construction experience, ensuring full compliance with ISO 45001:2018 and Dubai Municipality (DM) safety standards. Expert in risk assessment, hazard control, emergency response, and promoting a strong safety culture across multi-disciplinary construction projects. Certified Fire Warden (Third Party) with hands-on experience conducting safety drills and incident management training.

Core Competencies

HSE Inspections & Audits, ISO 45001 Implementation, Risk Assessment & Control Measures, Fire Safety & Emergency Response, Mock Drills & Evacuation Planning, Scaffolding & Work-at-Height Safety, Permit to Work (PTW) Systems, Confined Space & Hot Work Safety, Toolbox Talks & Training Delivery, Compliance with DM & Trakhees Regulations

Professional Experience

❖ Safety Officer | DTG Durrat Al Tameer

May 2025 – Present

- Monitor site operations and ensure compliance with ISO 45001 and DM Safety Code of Construction Practices.
- Conduct regular HSE inspections, hazard identification, and implement corrective actions.
- Organize and lead mock drills including fire evacuation, medical emergency, fall-from-height rescue, and heat stress management.
- Deliver toolbox talks, inductions, and refresher training for workforce and subcontractors.
- Investigate incidents and near-misses, recommend preventive measures, and maintain detailed records.
- Coordinate with engineers, supervisors, and third-party consultants to achieve a safe working environment.

❖ Safety Officer | ESS Engineering & Support Services, UAE

Jan 2022 – Apr 2024

- Conducted routine safety inspections across civil and MEP sites to ensure compliance with client and legal requirements.
- Implemented risk assessments and method statements (RAMS) for critical activities.

- Enforced PPE usage, proper scaffolding procedures, and fall protection systems.
- Supported the development of emergency response procedures and participated in safety audits.
- Maintained site safety documentation, reports, and safety statistics for management review.

❖ **Safety Officer | Construction Projects, Pakistan
2019 – 2021**

- Ensured adherence to local HSE regulations and company safety policies.
- Carried out incident investigations, root cause analysis, and preventive actions.
- Conducted safety briefings, risk assessments, and workforce awareness programs.
