

EHSAN NAZIR

Backend Developer
Software engineer
Laravel developer

PROFILE

Experienced in both backend development and pharmaceutical distribution, I have a strong background in Laravel-based web application development and API integration. Additionally, I have hands-on experience in managing pharma distribution operations, ensuring efficient inventory control, regulatory compliance, and timely delivery. My diverse skill set allows me to effectively optimize processes and collaborate with cross-functional teams.

EXPERIENCE

Simplexmed

13/12/2023 TO 30/03/2024

Developing, and maintaining server-side web applications using the Laravel framework, ensuring efficient data handling and API integration, optimize backend performance, troubleshoot issues, and collaborate with front-end developers to deliver seamless user experiences.

Islamabad pharma
